

It is my please to endorse David Glancy for the position of Lake County Probate Judge. After 28 years in private practice, in 2008 I was appointed at the Lake County Magistrate and Referee. I retired from that position in 2021.

In my capacity as Magistrate/Referee, David appeared before me on criminal matters, custody, parenting time and support issues, as well as delinquency and neglect/abuse cases. David represented his clients zealously, presenting their cases effectively and efficiently. David was always well prepared, having comprehensive knowledge of the facts of his case and the applicable law. David conducted himself in a professional manner when addressing the court as well as when interacting with opposing counsel.

Upon my retirement, David assumed the position of Magistrate/Referee. I had the opportunity to train David prior to his appointment to this position. The time spent with Daivid confirmed the qualities he had exhibited as a litigator. David's integrity is unquestionable. He has exhibited an even temperament and the ability to make decisions quickly and effectively. The position of Magistrate/Referee, and no Judge, has provided David with extensive experience in conducting hearings involving a wide range of legal issues. I am sure David conducts these hearings to the same high standards he exhibited as a litigator. I highly recommend David for the position of Lake County Judge.
